

CALIFORNATAN™ *sunless*

INTRODUCES THE AUTOBRONZER™

The Premier Spray Tanning System...
Radically different design for totally superior results.

PATENT PENDING NOZZLE TECHNOLOGY

- Superior atomized spray pattern from 4 nozzles for total, even, streak-free coverage
- Improved efficiency, less solution per application
- Unique, self-cleaning, anti-clog valves for consistent spray quality

GENERAL OPERATING FEATURES

- Voice commands to assist customer
- Automated drying feature creates a seamless tanning and finishing session
- Choice of three tanning levels available
- Full-body spray tan and auto dry in under one minute
- Attractive, open-environment design preferred by tanners, non-claustrophobic

MECHANICAL FEATURES

- Simple to install, no plumbing required
- T-Max® compatible
- One-year warranty with extended warranty option

PATENT PENDING APS (ATOMIZED, POLARIZED SPRAY) TECHNOLOGY

- Minimized overspray for a pleasant tanning experience with minimal equipment clean up
- Built-in computer controls pressure and volume to ensure the perfect amount of solution every time

DIMENSIONS
